

AHMED ALI

Frontend Developer · Webflow Expert · SEO Specialist · Vibe Coder

ahmed.ali@email.com | ahmedali.dev | github.com/ahmedali | linkedin.com/in/ahmedali | Pakistan

SUMMARY

Frontend developer who builds fast, search-optimized websites four ways — hand-written code, Webflow, SEO-first strategy, and AI-assisted (“vibe coding”) workflows. Comfortable owning a project from a Figma file, or just a prompt, through to a live site that actually ranks.

SKILLS

Frontend	HTML5, CSS3, JavaScript, React
Webflow	Webflow CMS, Custom Interactions, Client Handoff
SEO	Technical SEO, On-Page SEO, Core Web Vitals, Keyword Research
Vibe Coding	Claude, Cursor, Rapid Prototyping

EXPERIENCE

Freelance Frontend Developer & Webflow Specialist

Self-employed · Pakistan · Present

- Design and build responsive websites in hand-written code and Webflow for small businesses and personal brands
- Run technical and on-page SEO passes so client sites are positioned to rank, not just launch
- Increasingly use AI-assisted development workflows (Claude, Cursor) to prototype and ship faster

SELECTED PROJECTS

DevicesArena

devicesarena.com

Full-stack smartphone review and comparison platform — device database, spec-by-spec compare tool, custom auth, live news section. Hand-coded end to end.

Muse AI

muse-ai-ahmed.webflow.io

AI SaaS landing page built entirely in Webflow — animated stat counters, pricing tables, full marketing-site structure.

Umrah Tours

umrah-tours.webflow.io

Travel-agency site for Umrah packages — Webflow build plus on-page SEO groundwork across every page.

Exam Portal

exam-portal.infinityfreeapp.com

Full-stack exam portal with student login and a live leaderboard served through its own PHP API. Vibe-coded with AI-assisted tools.

EDUCATION

[Add your degree and institution here]
